Great Pools Program - Information for Schools

Introduction to the Great Pools Program

Thank you for your interest in Hunter Technologies Great Pools Program. The Great Pools Program is an exciting new initiative to improve pools all over Australia, while providing a valuable service to the school community through an innovative rewards system.

The rewards - What your school can earn

For every sale of the Anti Bio ABT70, your school will receive 1 (one) point. Each point is redeemable to the equivalent of \$100.00. These points can be redeemed for rewards when a certain point limit is reached. The more points the schools has, the greater the rewards. All rewards are **customised towards each school based on the schools requirements**, making each program unique.

Some recommended rewards include:

- Anti Bio system for school pool (for selected schools)
- Plasma TV's
- Projectors
- Computers
- Sporting Equipment
- Video cameras
- Schools works or services (subject to approval)
- Library book vouchers

About Hunter Technologies

Based on the Central Coast of NSW, Hunter Technologies is an innovative company specialising in distributing the Anti Bio sound wave treatment technology. Our sales, installation and support team are second to none, and all Anti Bio installations are made by a trained technician who will arrive promptly and complete tasks with the utmost professionalism.

How you can help

While Hunter Technologies will provide the sales and installation support, the school will be required to support the program as much as possible to ensure it's success. Hunter Technologies is more than happy to help with any ideas you may have.

Some recommended ideas include:

- Distribution of flyers and letter to the school community (these will be provided as a hard copy)
- Weekly newsletter advertisement update with number of points achieved
- News article on school's website introducing the program
- School assembly announcements
- Information day/evening

Our website - Greatpools.com.au

Hunter Technologies has established a website - www.greatpools.com.au - to not only provide information, studies and testimonials on the Anti Bio system, but also an online gateway allowing the school community to log in and check the progress of your school, and the rewards that can be earned at your particular school. A unique username and password will be provided for your school to log into the website.

Terms and Conditions

- * All rewards are purchased by Hunter Technologies and supplied to the school.
- * Points are not redeemable for cash.
- * Payment must be received in full for each system prior to points being awarded.

Introduction to the Great Pools Program

The Great Pools Program is an exciting new initiative to improve pools all over Australia, while providing a valuable service to the school community through a unique "points" structure.

The rewards - What your school can earn

For every sale of the Anti Bio ABT70, your school will receive 1 (one) point. These points can be redeemed for rewards. The more points the schools has, the greater the rewards! All rewards are customised based on the schools requirements, making each program unique. See the attached rewards sheet to see the rewards for your school.

About the Anti Bio system and the ABT70

The Anti Bio system is being used on approximately 1500 sites in 12 countries, including Australia, New Zealand, United Kingdom and Canada. Using low frequency sound waves, Anti Bio was first used on the Australian Institute of Sport swimming pool in 1995, the Anti Bio system is a resounding success by not only saving time and money, but also making the pool safer and cleaner.

The Anti Bio ABT70 is Anti Bio's residential pool system, treating pools up to 70,000 litres.

How much is each system?

Each ABT70 system is \$1100 inc. GST, and a \$249.00 inc. GST one-off installation fee applies.

Referrals program

For every friend or family member you refer to Hunter Technologies, if they purchase a system not only will your school receive a one point bonus, YOU will receive a \$50 MYER gift voucher!

FAQ

Will the Anti Bio work on ALL types of pools?

Yes. The Anti Bio system can be installed on pools with salt or manual chlorination, works with all filtration media, in-ground or above-ground.

Where is the system installed?

The Anti Bio system is installed on the pipework

Can the system be retrofitted?

Yes. All systems can be retrofitted and are portable.

Does the system cost much to run?

No. The running costs for the system are approximately \$1 per month on your power bill.

Are there any ongoing fees?

No. There are no ongoing fees for the ABT70.

When will I start to see results?

You will begin to see results within 1-2 weeks of installation on average.

What sort of savings will my pool have?

Every pool is different, and depending on the time of year, the savings will fluctuate. The majority of pools have a 30-50% saving in maintenance costs, while also enjoying a cleaner, safer pool.
