File No:

Anti-Bio Technologies Ltd  
PO Box 600  
ASHMORE CITY QLD 4214

*To Whom It May Concern*

Council has been using Anti-Bio Technologies for the better part of the 1999/2000 Swim Season.

Most noticeably the water has been considerably softer and the scum around the side of the pool is being kept to a minimum.

There has been a saving in the use of chemicals in the pool as quantities have been reduced.

The Pool Manager was complimented on two occasions by two visiting doctors who were impressed by the quality of the water.

When Swimming Carnivals have been held in Gayndah, competitors from the Region have often commented that Gayndah is "Water Perfect".

Yours faithfully

Rick Morris  
Acting CEO
