To Whom It May Concern:

Following the placement of an Anti Bio water treatment system on our 65000-litre pool and our 5000-litre spa some seven months ago the quality of the water has significantly improved. The back wash rate has been reduced which in its self is a great water saver. The use of chemical has also been reduced.

I am happy to confirm that the Anti Bio system is an excellent addition to our maintenance program.

Yours Sincerely
