Re Anti Bio System trialled at Mirage Villas

I would like to make comment on the Anti Bio Systems installed at Mirage Villas swimming pools

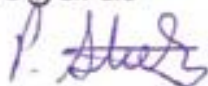

We trialled the systems for a period of two months and were impressed with the results.

Our overall chemical usage reduced around 35% and our water was noticeably clearer and cleaner.

On completion of the trial we purchased seven systems for our pools and to date the results are very pleasing

I therefore have no hesitation in recommending the Anti Bio System for all swimming pool applications.

Regards

Paul Steele
