

Business Reference: Anti BioTechnologies

To whom it may concern,

I have been involved with Anti Bio Technologies over the last six months, this has included a full installation of a water Anti Bio system which has been connected up to both our 80,000 litre heated exterior pool and our 3,000 litre interior spa. These systems were installed in early January 2001 and the Results have proven to be as previously indicated, a balanced chemistry system, as suggested a savings of approximately \$1,000 per year this including labour costs to adjust chemical levels, this resulting in a pay back period of just under 3 years.

For any further enquires please do not hesitate in contacting myself on ph: 02 42 263 555 office hours.

Best wishes
David Peterson
Chief Engineer
Novotel North Beach Wollongong
